Request to Install Cable/Phone Outlets

I understand and agree that the installation of an extra cable jacks and extra phone outlets are at my request and my expense.

I understand and agree that no additional holes are permitted to be drilled in the exterior of the home for the cable/phone outlet installation. The existing cable line is the only authorized entry point. **Cable installation must be done in a safe and correct manner. I understand that failure by the installer to correctly connect will result in removal of the cable and interruption or delay in service.**

I understand and agree to leave the cable/phone outlet in place when I vacate the home.

I understand and agree that I will be held liable for unacceptable workmanship resulting from the installation of cable/phone outlets.

Request to Install Satellite Dish

I understand that approval will be contingent upon a joint inspection with the service provider/technician and a Soaring Heights Communities, LLC representative. We will be instructing the installer where they are able to locate the lines. Once the lines are installed a representative from SHC will do the final approval for this request.

I understand and agree that I will be held liable for unacceptable workmanship and that any cost to refurbish the home due to the satellite dish or antenna installation will be charged to me. I understand and agree that the installation is at my request and my expense.

I understand and agree that no additional holes are permitted to be drilled in the exterior of the home during installation. The existing cable line into the home is the only authorized entry point. I also understand that the Dish itself may be up to but not exceeding 48 inches in diameter (standard size). **The dish is not authorized to be attached to the structure.**

I understand and agree the house number is to be identified on the satellite dish.

I understand and agree that I must personally remove the satellite dish or antenna prior to clearing housing. I also agree that the satellite dish or antenna will be removed if it becomes unsightly or becomes a safety problem.
