

Dig Permit Process

1. Call 811 Dig alert by dialing 811
 - a. They will come to your home and do all of the required locates for Electrical, Water, Storm and Sewer, Natural Gas, Cable and Telephone
 - b. This is a free service and they usually respond within 72-hours.
2. Contact Embassy Landscaping at embassyatfortmac@gmail.com to locate and mark all irrigation.
3. Provide TVC with material sample and or specs to verify compliance prior to making your purchase.
4. Once the service provider completes the locates at your home, you will be sent an email with a UNCC ticket number on it.
 - a. Save and print all of the emails and to attach to the form along with your schematic drawings to submit to TVC for final approval
5. TVC will visit your home and verify the schematic drawing and locates for submission to final approval. Final approval usually takes two-days.
6. Upon completion contact TVC to come to inspect the work that was done.
